Exterior

COVERAGE

1 Litre

30 m²

APPLICATION

Scrubbing
brush or broom

DRYING TIME

Min 24 hours

TOOL CLEANING

Water

Product use

Liberon Tough Deck Clean and Revive has been developed for cleaning old, tired and dirty natural wooden decking which has dulled and faded over time. It helps to remove black spotting caused by mould or lichen from most types of wood and helps to prevent the re-growth of fungi to leave the surface clean and ready for refinishing.

Application

Stir well before use. Dilute Tough Deck Clean and Revive with up to 2 parts water in a bucket. Apply the cleaner using a scrubbing brush or stiff broom, rinse with clean water and repeat as necessary until the timber is clean.

Wipe off any excess water and allow the timber to dry thoroughly, for a minimum of 24 hours, before applying any finishing products.

For stubborn marks, a stronger solution of Tough Deck Clean and Revive may be required.

Important: Always test product on a spare surface or inconspicuous area for compatibility and end result.

Cleaning and maintenance

Clean the wood as and when required prior to oiling or finishing.

Packaging

Tough Deck Clean and Revive is available in 2 L containers.

Health and Safety

Keep out of the reach of children. Do not empty into drains. Use only in well-ventilated areas. Do not allow to freeze.
