

NEW VERSION: Can be identified by the barcode: 5010212647967

PRODUCT DESCRIPTION & USE

Armstead Trade Stabilising Primer is a professional quality, clear solvent-based primer, formulated to seal powdery exterior masonry surfaces that can be used with most decorative finishes.

KEY BENEFITS

- **Seals porous, dry & powdery surfaces**
- **Resists alkali attack**
- **Use with Armstead Trade Masonry finishes**

PACK SIZES

COLOUR RANGE

Clear.

COMPOSITION (NOMINAL)

Pigment:	N/A.
Binder:	Acrylic Copolymer
Solvent:	White Spirit.

VOLUME SOLIDS

9% (nominal).

SURFACE PREPARATION

All surfaces should be thoroughly prepared by vigorous scraping and brushing to remove any loose or flaking paint and dirt. A stiff fibre brush will give better results than a wire brush, as any wire that becomes embedded in the wall will rust, and stain the new paint. Treat any existing mould or organic growth with *Weathershield Multi-Surface Fungicidal Wash. Make good minor defects. Use a sand and cement mix for larger holes and cracks.

Note: Do not seal sound new or bare surfaces with stabilising primer. Special precautions should be taken during surface preparation of pre-1960s paint surfaces over wood and metal as they may contain harmful lead.

APPLICATION

Brush or roller. For Health and Safety reasons related to all solvent-based paints, spray application is not recommended.

As with other solvent-based paints, do not apply in temperatures below 5°C (as recommended by British Standard BS 6150).

SYSTEM INFORMATION

Shake container vigorously before use. After suitable preparation, the normal recommendation is to apply one coat of **Armstead Trade** Stabilising Primer to powdery surfaces, followed by the appropriate **Armstead Trade** exterior finishing system.

PRACTICAL COVERAGE

A guide to the practical coverage which can be achieved under normal conditions is up to 10m²/litre.

DRYING TIMES (SINGLE COAT, STANDARD THICKNESS)

Touch Dry: 2-4 hours*
Recoat: 16-24 hours*

*These times will be significantly longer in cold damp conditions.

CLEANING UP

After use, remove as much paint as possible from brushes before cleaning with white spirit.

TRANSPORTATION & STORAGE

Do not use or store in extremes of temperature and protect from frost. To prevent spillage, please store and transport upright.

VOC

EU limit value for this product (cat.A/h): 750g/l (2007)/750g/l (2010). This product contains max.749g/l VOC.

***Weathershield** Multi-Surface Fungicidal Wash contains: Benzalkonium Chloride. Use biocides safely. Always read the label and product information before use.

VOC Content Very High more than 50%. VOCs (Volatile Organic Compounds) contribute to atmospheric pollution.
